

Pristine Solutions™ Anolyte Disinfecting Procedures

Hand Sanitation:

- ◇ Dispense two or three squirts from *Pristine Solutions™* Sanitizer bottle onto clean hands.*
- ◇ Rub hands together for 20 seconds until both hands are coated with solution
- ◇ Let air dry or dry with paper towel

Surface Disinfection:

- ◇ Wet surface with *Pristine Solutions™* disinfectant. *Alternatively pour into trigger sprayer, and lightly wet clean surfaces*
- ◇ Allow to air dry or wipe dry after 1 minute.
- ◇

*Hands and surfaces should be visibly clean
